

## Power, USB & data module ranges

We offer a comprehensive and versatile range of in, under and on-desk power modules with accessories.

In-desk modules are ideal for conference rooms and meeting room tables. On-desk power modules allow for easy access for when working at a desk. Under desk power solutions range from the affordable, to the more flexible metal based extrusion which can be fed from our underfloor power.

Sure Charge USB A and C are the latest additions to the CMD USB charging range. These new technologies offers the benefit of a USB type-A socket (maximum 2.4 Amp) and Fast Charging type-C USB socket that offers adaptive charge to the device which is plugged in.
